GAME INFORMATION

FACTIONS

HOMEWORLD CONFEDERACY

Once lost children of a destroyed world... now overseers of the largest and most powerful human government within the Spur.

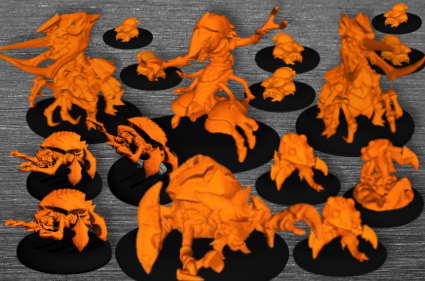

With its focus on ranged firepower and resilient, heavily armed infantry, the Homeworld Confederacy is a perfect choice for new wargamers, who can learn Breachstorm with a forgiving playstyle while a wide range of tactical options allow veteran players to build their team into a mobile assault force capable of taking the fight to the enemy.

ZHREN'THRAR PRIDES

The ancient Prides of the felinoid Zhren'thrar are societies grounded in ideals of personal and collective honor.

Agile, lightly armored and with a preference for close combat, the Zhren'thrar Prides provide a unique challenge for even experienced war-gamers to dig their teeth into. The Zhren'thrar's Fury mechanic gains from their incapacitated troops, creating compelling combos and exciting gameplay even in the face of seemingly insurmountable odds.

VOLUCRID HOST

The innumerable swarms of the Volucrid Host are vast, migratory flocks that ply uninhabited space in a tireless search for worlds ripe for colonization.

Teams from the Volucrid host are much larger than those hailing from other factions. This numerical advantage fuels their game plan as their inexpensive units benefit from outnumbering their opponents, and the faction uses its own as a resource – consuming their own troops to fuel waves of aggressive attack.

ATIVARI CONCLAVE

Agents of an antediluvian alien society; the enigmatic Ativari conclave values stealth, efficiency... and discord sowed among the Spur's other civilizations.

Ativari operatives are well-rounded fighters that form elite teams with a focus on combined-arms play and stealth mechanics. While they always enter a conflict outnumbered, the speed, stealth, and unpredictability of Ativari infiltrators makes victory all-but assured.

GAME MODES

TACTICAL OPS

Competitive, 1-v-1 gameplay across asymmetric, narratively-inspired objectives.

Components for this game mode are included in the **BREACHSTORM TWO-PLAYER STARTER SET (BS01)**, and additional components and expanded content can be found online, or in the **OBJECTIVES & UPGRADES CARD PACK (BS04)**.

COVERT OPS

Narratively driven cooperative and solo gameplay that pits teams of player-controlled operatives against outposts of enemies controlled by an action deck. Components to play this game mode are available as an expansion in the **COVERT OPS EXPANSION PACK (BS05)**.

CYCLIC OPS

Multiplayer free-for-all games that pit 3-4 players against each other to compete over a single, shared objective. Objective cards for this game mode can be found online or in the **OBJECTIVES & UPGRADES CARD PACK (BS04)**.
